The editor, said, Dec. 22d:
Dr., Hoofland's Celebrated German Bitters for the cure of Liver Complaint, Jaundies, Dyspopsia, Chronic or Nervous Debility, is deservedly one of the most popular medicines of the day. These Bitters have been used by thousands, and a friend at our elbow says he has himself received an effectual and permanent cure of Liver Complaint from the use of this remedy. We are convinced that, in the use of these Bitters, the patient constantly gains strength and vigor; a fact worthy of great consideration. They are pleasant in taste and smell and can be taken by persons with the most delicate stomachs with afety, under any circumstances. ACH OF THE ON, after directions of Baron Liebig, the great Physiological Chemist, by J. S. HOUGHTON, M. D., Philadelphia, Pa.

This is a truly wonderful remedy for Indigention, Dispepsia, Jaundice, Liver Complaint. Constipation, and Debildly, curing after Nature's own method, by Nature's own agent; the Gastric Juice.

IJ- Half a tenspoonful of Persin, infused in water, will digrest or dissolve Five Pounds of Rosal Beef in abaut 2 hours, out of the stomach. PEPSIN is the chiel element, or Great Digesting Principle of the Gastric Juice—the Solvent of the Food, the Purifying, Preserving & Stimulating Agent of the Stomach and Intestings. It is extracted from the Digestive Stomach of the Ox, thas forming an Artificial Digestive Hill directly like the natural Gastric Juice in its Chemical powers, and furnishing a Complete and Perfect Substitute for it. By the aid of this preparation the pains and evils of Indigestion and Dyspepsia are removed, just as they would be by a healthy stomach. It is doing wonders for Dyspeptics, curing cases of Debility, Emcaition, Norvous Decline and Dyspeptic Consumption, supposed to be on the verge of the grave. This scientific evidence upon which it is based in the highest degree curious and remarkable.

Scientific Evidence.

Baron Liebig in his celebrated work on Animal Chemistry says: An Artificial Digestive Fluid, analogous to the Gastric Juice, may be readily prepared from the nucous membrane of the stomach of the Caff, in which various articles of food, as meat and eggs, will be softened, changed and digested, just in the same manner as they would be in the fundam stomach.

Dr. Combe, in his valuable writings on the Physiology of Digestion, observes that 'a dimination of the sun and all-prevailing cause of Dyspepsia; 'and he states that a distinguished professor of medicine in London, who was severy thing else to fail, had recourse to the Gastric Juice is a prominent and all-prevailing cause of Dyspepsia; 'and he states that a distinguished professor of medicine in London, who was

us in the natural digestions.'
